FOREWORD

We submit our 1958 Price List with deep appreciation for the many kind and complimentary unsolicited expressions from hundreds of satisfied customers from all over the United States. We are very grateful for the many letters received during 1957 - 1958 praising the quality of our plants, and their condition on arrival at destination, as well as our generosity in including quality bonus plants.

We have added many fine varieties to our collection, and also have been very fortunate in acquiring many new introductions from some of the leading Hybridizers in the country. We are very proud of our 1958 collection and we sincerely believe it to be as complete a list as you will find anywhere.

As stated in our 1957 List, we are now devoting our entire nursery activities to the growing of modern and top variety daylilies. Our new location is situated at 304 BreauX Bridge Avenue, within the city limits, at which location we first started our nursery business some 18 years ago.

Our garden is opened to visitors the year round, and we hope many of you will have the opportunity to visit our garden, where you can compare the creations of the top Hybridizers of all times.

In conclusion, we wish to express our heartfelt thanks to our many friends and customers. Hoping to see you in Washington, D.C. in 1959.

Sincerely,
C. G. & Louise Simon

DEBBIE RITCHEY

1958 INTRODUCTION

Mr. W. B. MacMillan assisted by his able wife Peggy Mac of the House O' Macs, have been Hybridizing Louisiana Irises and Hemerocallis for many years and have come up with several prize winning varieties. Mr. Mac has concentrated his Hem crosses on Eyed and Red Varieties, and it is our prediction, that within the next two or three years you can expect some knockouts and real outstanding Eyed and Red Varieties from the House O' Macs.

We feel honored and priviledged to introduce one of Mr. Mac's Hybrids. Perhaps, we cannot help being a little biased in recommending this one, for the reason it was named for one of our granddaughters. However, we can assure you of one thing, if you plant Debbie Ritchey and Mr. Flory's Flying Saucer in a bed, each time you come up to this bed, you will notice these two first.

DEBBIE RITCHEY, Medium sized mid-season flower, has flaring petals of Cordova, veined with red and embossed mid-rib. The sepals are a lighter golden brown. The rich eye zone of velvety wine ushers in the cool green throat. "DEBBIE" immediately attracts the eye in the garden with its decisive coloring, suggesting autumn woods. A definite color break. Height 30" and reblooms, sun resistant, ever-green -----\$10.00

CLOSING OUT AND SPECIAL GROUPS

You will find listed under these two Groups, many standard and proven daylilies worth several times the price they are listed at. We have a surplus stock of the varieties listed under the Special Group, and to make room for the many new varieties we have acquired this year it is necessary that we discontinue the varieties listed under Closing Out Group.

JOIN THE HEMEROCALLIS SOCIETY

Anyone interested in daylilies should join the American Hemerocallis Society. This organization is devoted to the advancement of daylilies. The best advice from the leading hybridizers and experienced growers of daylilies is made available to the members in the form of printed bulletins issued from time to time, also attractive and informative year book is issued each year.

The dues are \$3.50 per year and should be mailed to Mrs. Daisy L. Ferrick, Secretary, 416 Arter Avenue, Topeka, Kansas. If you wish to send us your dues with an order we will take care of it for you, and will send a bonus of plants with your shipment.
